### **DETAILED ACTION**

This office action is a response to the amendment filed on 9/8/2004.

#### ***Election/Restrictions***

1. Since generic claims 1 and 11 are allowable, claims 2-10 and 12-20, directed to an assembly device, previously restricted from the election of species, are now subject to being rejoined. Claims 1-20 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

#### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: Upon further consideration with applicant's arguments, examiner agrees with the applicant's counsel that the prior art of record of Tucker et al. fails to disclose the claimed invention such as the engagement feature is affixed to a selected one of the frame and locking arm, and the confinement feature is provided by the remaining one of the frame and locking arm. Also, Huffman et al. and Monforte teach a robotic arm and locking feature (arm), but fail to teach the engagement feature, which is affixed to a selected one of the frame and locking arm and the confinement feature, which is provided by the remaining one of the frame and locking arm. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-20 are allowed.
